
Trainee Patent Attorney – Electronics & Electronic Engineering, Mechanical Engineering – London

The Firm

Forresters is a leading full service intellectual property firm with an international client base. We have offices located in London, Birmingham, Liverpool, Munich and Southampton. Since being established in 1884, we have grown from a regional firm into an international practice. Despite our long history we are a young firm with a fresh approach to our clients' requirements. We are rated as one of the leading intellectual property firms in the UK.

The Role

The successful candidates will join Forresters' thriving Patent groups in our **London office**, and will train in handling all aspects of patents and registered designs. The candidates will assist in protecting patent applications and mechanical inventions, covering a wide variety of technologies such as: power supplies, low energy lighting, hydroelectric turbines, computer software, data security, high performance data storage, semiconductor design, encryption and artificial intelligence.

On-the-job training will be given by partners and other fully qualified senior attorneys, as well as through external training courses. The aim is for the candidates to become fully-qualified UK and European patent attorneys.

- A 2:1 degree or above in areas such as mechanical, electrical or electronic engineering is required but other degree in engineering or science will also be considered.
- You must be capable of working both independently and as part of a team, have organisational skills and excellent oral and written communication skills.
- You must possess a commitment to quality and attention to detail, and the ability to work under pressure and meet deadlines.
- You should possess a simple understanding of mechanical inventions that do not necessarily involve electronics or software.

Start date: Summer/autumn 2018

The Package

- Very competitive salary.
- A pleasant and friendly working environment.
- Flexible working – core hours.
- Additional 6 flexi days off in lieu.
